

Antenna MAX S. IP-rated integrated antenna enclosure for hybrid cellular and satellite (Starlink Mini) connectivity. Cellular Wi-Fi Antenna Enclosure with GPS, 4x LTE/5G, 2x Wi-Fi, 1x GPS, Cellular Frequency range: 600-6000MHz, Cellular and GPS connector type: SMA male, Wi-Fi connector type: RP-SMA male. Full Set Cables. Router Compatibility: BR1 Mini Series, Transit Duo Pro, BR1 Pro 5G, BR1 Pro (CAT-20).

Antenna MAX S

peplink x STARLINK

Use Peplink's SpeedFusion to seamlessly bond or failover between Starlink and 5G, ensuring continuous, high-quality connectivity even in areas with physical obstructions.

Starlink

5G

Hot Failover

SpeedFusion

Bonding

Durability to the MAX

The Antenna MAX S is engineered for outdoor longevity, built with UV- and salt-resistant plastics, fitted with a metal base for heat dissipation, designed to withstand high wind loads for fixed or mobile applications.

Mobility 82G. 11-in-1 Cellular & Wi-Fi Antenna System with GPS Receiver, 8x LTE/5G, 2x Wi-Fi, 1x GPS, Frequency range: 600-6000MHz, IP68 Rating, Cellular and GPS connector type: SMA male, Wi-Fi connector type: RP-SMA male. Color: White. Cable length: 6.5 ft / 2m.

Mobility 82G

peplink

LTE

5G

Built for 5G
Omni-directional 8x8 MIMO mobile antenna for the best performance.

Ultra Wide Bandwidth
Wide frequency range (600-6000MHz) supporting LTE and 5G connectivity in any location.

Robust Design
IP67 rated, low profile and durable housing.

Mobility 82G

peplink

AMBULANCE

Easy Installation
Surface, panel installation for various applications.

Flexible Applications
Public Safety & Mission Critical Connectivity
Mobile Healthcare
Transportation Connectivity

Mobility 22G. 5-in-1 cellular and Wi-Fi antenna system with GPS receiver, 2x LTE/5G, 2x Wi-Fi, 1x GPS, Frequency range: 600-6000MHz, IP68 Rating, Cellular and GPS connector type: SMA male, Wi-Fi connector type: RP-SMA male. Color: White. Cable length: 6.5 ft / 2m.

MOBILITY 22G
5-in-1 cellular and Wi-Fi antenna system with GPS antenna

Features

- 5-in-1 cellular and Wi-Fi antenna system with GPS antenna
- 2x2 Cellular frequencies: 600-6000 MHz
- 2x2 Wi-Fi frequencies: 2400-2500 MHz & 5000-6000 MHz
- Durable and UV-stable housing
- Black or white color options
- IP68 rated

6 GHz, IP68, 2x2 MIMO, B71 support, LTE, Wi-Fi, GPS, Back to 5G

TAA COMPLIANT

B One Plus Futureproof Gigabit Dual WAN LTE Cellular Router. 2x Ethernet WAN, 4x Ethernet LAN, 1x Embedded 4G LTE Modem (Latin America CAT-4), 2x2 MIMO Simultaneous Dual-Band, Wi-Fi 6, 1Gbps Router Throughput, Full antenna set

B One Plus
Supercharged Connectivity for Remote Offices and Small Businesses

Dual Ethernet WAN architecture keeps you connected even when one of your Internet lines goes down

Seamless Failover
Backup connections are always ready to kick in instantly

Automated Load Balancing
Optimize network performance by with advanced load balancing algorithms

Traffic Steering
Ensure applications don't stutter by prioritizing important network traffic

TAA COMPLIANT

B One Plus

SpeedFusion technology seamlessly bonds multiple Internet connections into one more-reliable Internet feed

Use Cases

- REMOTE OFFICE**
- SMALL BUSINESS**
- WAREHOUSE**

B One Futureproof Gigabit Dual WAN Router. 2x Ethernet WAN, 4x Ethernet LAN, 2x2 MIMO Simultaneous Dual-Band, Wi-Fi 6, 1Gbps Router Throughput, Full antenna set. un módem externo (como un Starlink o un cable módem de fibra) y no necesitas respaldo celular interno. Es más económico y ofrece la misma potencia de ruteo y Wi-Fi 6 Ethernet Gigabit WAN. Para tener una tercera conexión, se utiliza el puerto USB o de usar Wi-Fi como WAN (Si ya tienes un módem externo (como un Starlink o un cable módem de fibra) y no necesitas respaldo celular interno

B One 5G Futureproof Gigabit Dual WAN 5G Cellular Router 2x Ethernet WAN, 4x Ethernet LAN, 1x 5G Modem, 2x2 MIMO Simultaneous Dual-Band, Wi-Fi 6, 1Gbps Router Throughput, Full antenna set

B One

A Game Changer with Peplink App

- With a valid PrimeCare subscription, take advantage of all of SpeedFusion features without the need for an advanced network setup
- Easy to set up and use with our Companion App

RETAIL

B One

Easy Integration with Starlink

- Bond multiple Starlink connections together
- Load Balance your Starlink with other Internet services (5G/LTE, Cable, Fiber, FWA)
- Optimize your network with additional features requested specifically by Starlink

Made for Fixed Wireless Access (FWA)

- Designed for use with MSP 5G/LTE Gateway devices
 - Bond various FWA together (AT&T / T-Mobile / Verizon)
 - Load Balance different Internet sources (Cable, Fiber, 5G/LTE)
- Tether your phone with Wi-Fi WAN or USB

Long Term Support

- Firmware is constantly updated to patch vulnerabilities and improve performance
- Futureproof your network as Peplink never ends support for older devices

B One 5G

Easy Integration 5G with Starlink

- Bond multiple Starlink connections together
- Load Balance your Starlink with other Internet services (5G/LTE, Cable, Fiber, FWA)
- Optimize your network with additional features requested specifically by Starlink

Made for Fixed Wireless Access (FWA) with 5G

- Designed for use with MSP 5G/LTE Gateway devices
 - Bond various FWA together (AT&T / T-Mobile / Verizon)
 - Load Balance different Internet sources (Cable, Fiber, 5G/LTE)
- Tether your phone with Wi-Fi WAN or USB

5G/LTE

allows you to use 5G/LTE as a backup or primary Internet source

Use Cases

Router MAX BR2. 2x 5G Modem (Global), 2x Ethernet WAN (can act as a LAN port if needed), 1x USB 3.0 WAN Interface, 2x2 MIMO Simultaneous Dual-Band, Wi-Fi 6, 1Gbps Router Throughput. Full antenna set. US Carrier Certifications: AT&T

Made for Vehicle applications

Secure your power source in mobile environments with the Molex Micro-Fit power connector. The wide input power range along with Ignition Sensing capabilities makes this a sure fit for your vehicle installs.

Effortless Cellular Extension

With the PoE input feature, the BR2 Pro can seamlessly extend your existing SD-WAN infrastructure to provide dual LTE/5G connectivity. One cable for both power and data, it's that simple.

SIM-plicity as always

Built-in eSIM and SIM Injector support, the BR2 Pro maximizes your possibilities with flexible remote SIM management.

Oh, So Many WANs

Complement any SD-WAN deployment with the Dual Ethernet WANs, Dual 5G/LTE, USB WAN, and Wi-Fi WAN. Not enough WANs? Add the MAX Adapter 5G for an instant third 5G connection. Literally, all the WANs to keep you going.

8 PoE 10G Switch. 8 PoE 10G Switch w/720W power budget, 8x 10GE | 802.3bt PoE++ RJ45, 4x 10GE SFP+

Simplify Networks

Centralized power up to 740w. Gigabit, Multi-gigabit and SFP+ connections.

Total Network Control

- Port Control
- VLAN
- Traffic Monitoring
- Individual Port Power

Switch Series

Flexible managed PoE switches in the Peplink ecosystem

- 8 PoE 10G Switch
- 48 PoE 2.5G Switch
- 24 PoE 2.5G Switch
- 24 PoE 2.5G Switch Rugged

TAA COMPLIANT

"Single Pane of Glass"

Manage any switch-connected end-point device remotely via **InTouch**

Manage your entire network with our **InControl** management platform.

MAX BR1 Mini Mobile Router. 1x Embedded 4G LTE Modem gestion de nube y GPS integrado (CAT-4), 2x Ethernet LAN, 1x Optional Ethernet WAN, Optional WAN Failover, Dual-Band Wi-Fi 5, 2x2 MIMO, GPS/Fleet Tracking, Full antenna set Telemetria

BR1 Mini

Just one remarkable device

Engineered with the highest quality build in mind, sleek, reliable, yet ruggedized metal, this device has been built to withstand whatever deployment scenario thrown at it.

Stay in touch with InTouch

InTouch extends your reach to third party devices connected to the BR1 Mini. Remotely view, configure or troubleshoot third party devices, all within the InControl2 environment, eliminating the need for a separate and costly ODM infrastructure.

Manage with confidence

Control the BR1 Mini using InControl2 cloud-based engine management system. Generate useful reports and push configurations, as you remotely access any Peplink device with ease.

BR1 Mini

Use Cases

Why BR1 Mini?

Remote Access to Third Party Device Interface (InTouch) Other Solutions will require network engineers to maintain and be costly. VS Our BR1 Mini enables access to linked devices through a single platform.	Seamless Connection Transfer Without Interruption (Hot Failover) Other Solutions will experience network interruptions. VS Our BR1 Mini provides seamless network connectivity.
Option to Enable Additional Features (Optional Subscription) Other Solutions require licenses for features or otherwise lock the device. VS Our BR1 Mini offers an optional package inclusive of several features.	Improve your Video and Collaboration (WAN Smoothing) Other Solutions may experience jitter and delays. VS Our BR1 Mini improves the quality of real-time applications such as Zoom / Teams.
Private LTE Network Availability (CAT-7) Other Solutions operate within limited bands that don't have access to private LTE. VS Our BR1 Mini can operate within LTE bands dedicated to private LTE networks.	Privately Hosted Management Platform (On-Premise Network) Other Solutions are managed only through cloud-based platforms. VS Our BR1 Mini can be managed through a platform hosted on private server hardware.

MAX BR1 Mini 5G with WiFi (No GPS). Single Cellular 5G Mobile Router / WiFi / conectividad celular (CAT20)

One device to do it all

Bring 5G Wi-Fi to your setup with a single compact device. This means simpler networks, lower costs and fewer points of failure.

Utilize Wi-Fi WAN for Added Reliability

Take an existing Wi-Fi connection and use it as an additional WAN for yourself.

Having multiple redundant WANs helps ensure your connection stays up when your 5G or wired connection falters.

Key BR1 Mini 5G Benefit

An exceptionally reliable, rugged 5G Cellular Router that connects your data and Internet applications - wherever they are.

#1 Future-proof Connectivity

With the latest cellular LTE and 5G via SIM or eSIM and a second optional Ethernet WAN, the BR1 Mini 5G connects your Ethernet devices with up to 300Mbps throughput.

#2 Ruggedized and Reliable

Built in a rugged 5 reliable metal case with fanless, ventless design certified for shock and vibration resistance for deployment virtually anywhere.

#3 Designed for Remote Operation

With central management via Peplink InControl2 and local device management via Peplink InTouch, the BR1 Mini saves time and reduces field visits.

Use Cases

AP One Rugged Access Point. Professional Wi-Fi AP for Business. Dual-band Wi-Fi 5, 2x2 MIMO. Rugged Metal Enclosure

AP One Rugged
Case Durable
Price Unbeatable
TAA COMPLIANT

WiFi 5 Mesh

The AP One Rugged is made for times where you need Wi-Fi in **extreme environments**

- Its tough exterior allows for smooth operation in -40°F/-40°C to 140°F/49°C environments.
- Power the device normally through **Power over Ethernet** for less cable management, or an industrial **microfit connector** for a secure and durable power option.
- It's resistant to shock, vibrations and electromagnetic waves with the certifications to prove it.
- The DIN rail mount system allows for flexible deployment, no matter if it's on a wall, on a pole or on the ceiling.

Take full control of your network

This isn't just your everyday access point. With **Wi-Fi mesh** support, you can eliminate blindspots in your network, and easily control all your devices with InControl 2.

Ethernet available whenever you need it

It's not just limited to simply providing Wi-Fi either. Boost your devices with wired connections through its 3 GE ports. Having options gives you the power to deploy however you want.

AP One AX Access point. Radio Chain: 4 x 4:4, Data Rates: 4 x 4 MU-MIMO, Manageable by InControl 2 - one-stop platform to manage the entire WLAN network, Plenum Rated, Indoor Plastic.

AP One AX DATASHEET **PEPLINK**

Manage Centrally, No Extra Hardware Needed

Each AP One AX comes equipped with InControl central management. View the health and data usage of your network from any web browser. Centrally manage your network's SSID and radio settings from a single pane of glass. Use the searchable event log to quickly diagnose your entire network.

Turnkey or Custom Captive Portals

Customize your captive portal as little or as much as you would like. Right out of the box, it includes a captive portal ready for immediate use.

For a more branded user experience, you can edit every aspect of the captive portal using InControl.

AP One AX DATASHEET **PEPLINK**

Simply Better Wi-Fi

Wi-Fi 6: Faster, Better
This technology is 45% faster than Wi-Fi 5, has 4x more device capacity, and consumes less power for connected devices.

Enterprise-Grade Fast Roaming
This device supports 802.11k, v, and r providing users with a more seamless roaming experience between access points.

Seamless Peplink SD-WAN Integration

The AP One AX works seamlessly with other services in the Peplink ecosystem, providing unique network capabilities, unmatched network flexibility and ease of use.

InControl Central Management
Monitor network health on a single dashboard. Push configuration profiles on multiple devices at once. Remotely access the Web Admin of any device.

Balance/MAX/FusionHub
Provides unbreakable connectivity by combining multiple WANs. Works with InControl to centralize VLAN, firewall, and outbound policy.

SD-Switch
Works with InControl to remotely configure and activate PoE ports. Monitor power consumption.

AP One
Works with InControl to centralize SSIDs, radio settings, and deliver captive portals.
